Subject: Comments on Advance Notice of Proposed Rulemaking for Part 704

Mary Rupp
Secretary of the Board

I am the CEO of a 76 Million dollar credit union in Anderson, Indiana. Our credit union was founded by General Motor employees.

Our number one problem is the lack of growth. General Motors is gone and our demographics are poor for a community credit union.

NCUA has approved our expansion and move to improve our demographics. I am in the middle of a 5 million dollar building project.

I only ask for one thing, please give us legislative parity with the banks. Your cooperation is appreciated.
